Actions to stop doing:

- We are currently satisfied with our process because members have been having consistent meetings. There has been active communication regarding individual progress as well.

Actions to start doing:

- We need to be running "git pull origin main" every time we start coding in order to avoid future merge conflicts. We also need to clarify what each person is doing, so there is no confusion.

Actions to keep doing:

- We need to continue having daily stand-ups and attending group meetings so we can update each other with progress.

Completed:

- Completed all Sprint 2 user stories
- User stories completed:
    - **Course Search**: As a student, I want to search through all available BSOE courses so that I can find the course that I want to enroll in easily.
    - **Upload Notes**: As a class member, I want to be able to upload my notes(s) so that I can share my knowledge with other students.
    - **PostNote Class Enrollment**: As a student, I want to be able to enroll in a class in PostNote so that I can see all the notes that have been uploaded for a specific class and so that I can upload my notes for a specific class.
