Product Backlog

Product Name: PostNote
Team Name: PostNote Members
Date: 5 December 2023

Product Backlog: Provide a list of high priority user stories and bug fixes that can serve as a guide for a follow-on project

- **All Courses**: As a student, I would like to be able to enroll in any course in PostNote (not only engineering related courses) so that I can upload/download notes for all my classes.
- **Collaborative Live Doc**: As a student, I would like to have one big document than everyone in the course can edit in real time so that my peers and I can take notes together at the same time in one place.
- **Professor Opt-in**: As a professor, I want to be able to opt-in or out so I can choose to allow students to share notes.
- **Past Exams**: As a student, I would like to share and view past exams so that others and myself can benefit from studying past exams.
- **Sort Notes**: As a student, I would like to be able to sort previously uploaded notes based on date, name, or topic (not just by weeks) so that I can find notes easier.
- **Drawing on Notes**: As a student, I would like to have the ability to draw on the live note document so that I have a way to do hand-drawn annotations that can support my learning.
